

Additional tailgate spreaders

Meyer Mate™

- Built-in flow control auger and agitator
- Spread widths from 3 to 30 feet
- Vibrator standard
- Optional salt screen is completely removable
- Optional 3-Point hitch systems are available for Ag and Turf applications
- Optional motor guard
- Optional tailgate Mate EZ-Swing™

Meyer® full line spreader specifications

Model	Part #	Capacity	Material	Vehicle Application	Mounting Method	Warranty	Dimensions (L x H x W)	Weight (Empty)	Vibrator Kit
Blaster 350	32000	350 lbs. 5.75 cu.ft.	#1 Rock Salt	SUV, Light truck, ½ ton +	2" receiver (std); Cat. 1, 3 point hitch (opt); Flat Bed Utility Adapter (opt)	ROC 3/5 year	49" x 35.5" x 30"	120 lbs.	Optional
Blaster 350S	37000	350 lbs. 5.75 cu.ft.	#1 Rock Salt/Sand* or Sand	SUV, Light truck, ½ ton +	2" receiver (std); Cat. 1, 3 point hitch (opt); Flat Bed Utility Adapter (opt)	ROC 3/5 year	49" x 35.5" x 30"	130 lbs.	Standard
Blaster 750	33000	750 lbs. 10.75 cu.ft.	#1 Rock Salt	½ ton +	Hinged, Dump, Fixed, Flat Bed (all optional)	ROC 3/5 year	53.6" x 44.5" x 25"	165 lbs. w/o mount	Optional
Blaster 750S	39000	750 lbs. 10.75 cu.ft.	#1 Rock Salt/Sand* or Sand	½ ton +	Hinged, Dump, Fixed, Flat Bed (all optional)	ROC 3/5 year	53.6" x 44.5" x 25"	175 lbs. w/o mount	Standard
Meyer Mini Jr.	36006	400 lbs. 5.75 cu.ft.	#1 Rock Salt	SUV, Light truck, ½ ton +	2" receiver (std); Cat. 1, 3 point hitch (opt)	1 year	24" x 28" x 30"	120 lbs.	n/a
Meyer Mate XL	38000	700 lbs. 9.0 cu.ft.	#1 Rock Salt/Sand	½ ton +	Strap (std); Cat. 1, 3 point hitch (opt); Swing (opt)	1 year	48" x 30.75" x 24.8"	150 lbs.	Standard
Meyer HotShot/HotShot HD	38100/ 38110	70 lbs. 1.3 cu.ft.	Topdress sand, icemelt, limestone, fertilizer - all bagged	Push Spreader	n/a	1 year	25" x 23.5" x 17"	25/36 lbs.	n/a

*The Meyer Blaster 350S and 750S come standard with vibrator and spread a 50/50 blend of dry, free flowing #1 rock salt and sand or sand only.

Broadcast spreaders

HotShot HD

- Stainless steel frame for corrosion free spreading
- 1.3 cu. ft. polypropylene hopper (70 lb. capacity)
- Easy-off see-through cover keeps material dry
- 13" pneumatic tires minimizes pushing effort
- Stainless steel side deflector controls spread pattern
- Spreads up to 18 ft.

HotShot

- 10" Pneumatic tires minimizes pushing effort
- 1.3 cu. ft. polypropylene hopper (70 lb. capacity)
- Easy-off see-through cover keeps material dry
- Powder coated welded frame is epoxy coated for durability
- Spreads up to 12 ft.

Meyer® BLASTER™

More power. Greater reliability.

When you need to quickly spread ice melting material, so you can move onto the next job, get a **Blaster™ Spreader** from Meyer® Products. The Blaster spreader features a ½ hp direct drive motor that gives you the auger power when and where you need it. Most competitor's motors run at 15 amps and surge to only 40 amps, much less than the Blaster. The Blaster motor and controller deliver a continuous 40 amperes during normal operation and surges to 70 amperes when the "blast" feature is pressed to grind through rock salt, calcium chloride and other ice melting materials.

BLASTER MOTOR FEATURES

Most powerful motor available

At the heart of all Meyer® Blasters™ is the largest direct drive motor in the industry. The motor requires no drive lubricant so it will not rob power during extreme cold. Without the need for gearing or lubricants, you get 75% more auger power, the strongest on the market.

BLASTER MOTOR – BUILT TO LAST

1. 304 stainless steel spinner
2. Watertight connectors
3. Stainless steel shaft
4. Motor protected with sealed frame, special shaft seal and designed with press fitted double ball bearings
5. All frame components powder coat painted
6. Low loss electrical harness
7. Motor lead location prevents accidental damage from below

BLASTER SPEED CONTROLLER FEATURES

- > Variable speed controller for precise material spread pattern
- > “Blast” mode for grinding through tough chunks of salt for improved material flow

Meyer® Blaster™ 350

BLASTER 350 SPREADER FEATURES

- > 350 lb. capacity (5.75 cu. ft.)
- > Variable speed controller for precise material spread pattern
- > “Blast” mode for grinding through tough chunks of salt for improved material flow
- > Low maintenance polyethylene hopper
- > Spread pattern up to 40 feet
- > Spreads salt only
- > Various mounting methods to fit a wide variety of vehicles
- > Perfect for SUV, light truck and ½ ton + vehicles
- > ROC 3/5 year warranty

Meyer® Blaster™ 750

BLASTER 750 SPREADER FEATURES

- > 750 lb. capacity (10.75 cu. ft.)
- > Variable speed controller for precise material spread pattern
- > “Blast” mode for grinding through tough chunks of salt for improved material flow
- > Low maintenance polyethylene hopper
- > Spread pattern up to 40 feet
- > Spreads salt only
- > Various mounting methods to fit a wide variety of vehicles
- > Perfect for ½ ton + vehicles
- > ROC 3/5 year warranty

Meyer® Blaster™ 350S

BLASTER 350S SPREADER FEATURES

- > 350 lb. capacity (5.75 cu. ft.)
- > Includes vibrator for spreading sand or salt/sand*
- > Variable speed controller for precise material spread pattern
- > “Blast” mode for grinding through tough chunks of salt for improved material flow
- > Low maintenance polyethylene hopper
- > Spread pattern up to 40 feet
- > Various mounting methods to fit a wide variety of vehicles
- > Perfect for SUV, light truck and ½ ton + vehicles
- > ROC 3/5 year warranty

* Spreads a 50/50 blend of dry, free flowing #1 rock salt and sand or sand only.

Meyer® Blaster™ 750S

BLASTER 750S SPREADER FEATURES

- > 750 lb. capacity (10.75 cu. ft.)
- > Includes vibrator for spreading sand or salt/sand*
- > Variable speed controller for precise material spread pattern
- > “Blast” mode for grinding through tough chunks of salt for improved material flow
- > Low maintenance polyethylene hopper
- > Spread pattern up to 40 feet
- > Various mounting methods to fit a wide variety of vehicles
- > Perfect for ½ ton + vehicles
- > ROC 3/5 year warranty

* Spreads a 50/50 blend of dry, free flowing #1 rock salt and sand or sand only.

BLASTER 350S & 750S FOR RELIABLE SALT/SAND APPLICATION

Vibrator Motor – Breaks up sand or salt/sand to keep an even material flow.

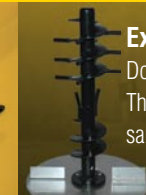

Baffle Plate – Regulates the flow of sand or salt/sand.

Extended Auger –

Doubles the length of the shaft. The extended fingers breaks down sand or salt/sand into smaller pieces for improved material flow.

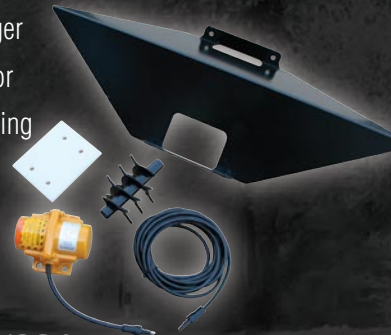

Meyer® Blaster™ options

Vibrator kit (option for models 350 and 750)

Spread a 50/50 blend of dry, free flowing #1 rock salt and sand or sand only with the easy to install optional vibrator kit.

Kit includes:

- > extended auger
- > vibrator motor
- > motor mounting plate
- > baffle plate and wiring

Hopper screen

The removable welded steel mesh hopper screen prevents large chunks of material into the hopper and improves material flow.

AVAILABLE IN 0.5"X0.5" OR 2"X2"
